

Stay Tuned. Get it?

DJ Service

33 Productions started by serving the needs of other DJ services over 12 years ago. We have literally worked at hundreds of events all over the country. It all began by helping other companies accomplish their goal of making parties special.

Since that time we have been careful observers of guests on the dance floor and the needs of our clients. In the process it became apparent that we really had something special to offer – making your event HAPPEN! Our recipe for success is not difficult. It just involves knowing what to do, when to do it and following up to make happen.

We know that you will enjoy working with us as much as we enjoy the simple pleasure of hearing, “Great job!” after an event.

So how do you figure out which DJ service to use?

We know that you are busy and don't have a lot of time to spend on everything. That's where we can help you. We take the burden out of planning your event by combining your needs and our experience to come up with a plan that fits your desires and budget. That way you don't have to have all the answers. We'll help you free your mind to do the fun part – enjoy your event!

Where have we worked and why is that a benefit?

We have worked in most of the venues of the Chicago area. We know how to work with the other providers so everything is timed beautifully.

How do we do this?

We make sure the photographers are in position well in advance of photo opportunities. We make sure that the announcements work with the food service so everything happens at the right time. Our DJ's know how to coordinate everything so you can focus on what you are there to do – have fun!

Live Music

33 Productions grew out of the sheer love of music performance and the joy of playing in front of people – live!

We offer options for live music for ceremonies and dance bands for receptions and parties. We provide different sizes of groups for events from three to thirty pieces.

Our musicians have worked all over the world with recording artists and traveling groups. But they all have one thing in common – a love and enjoyment for making your party HAPPEN!

We recommend listening to our CD, coming out to see us live and getting together one on one to plan your event.

As always our experience is what sets us apart from the rest. We look forward to meeting with you to help you plan your event.

Sound

One of the benefits of having musicians working with us we have a lot of experience with sound equipment. We decided a long time ago that since the sound guy can make or break a band we really had something to offer – sound people that really know how to listen!

We know how to trim the system to make your band sound good in the room.

Specials!

Services

- [DJ Service](#)
- [Live Music](#)
- [Sound](#)
- [Video Projection Systems](#)

We know how to make sure your vocalists can hear themselves. This can help you get your sound across and save a lot of hassle.
Our equipment can accommodate shows from 50 to 2,000 people! We'd love to set up a time to meet with you by phone or in person and review the needs of your event. The best part is . . . we carry the equipment not you.

Video Projection Systems [Top▲](#)

We provide video systems to show music videos, live speakers or abstract graphics. These can be used at a party, club or a convention.

We'd like to have the opportunity to find out the details of your event, what your needs for projection are and create a quote. This can be done by phone or we can meet with you at the venue.

Some of the details we will work with include the size of the room, number of viewers and how many screens you will need.

We have the experience to coordinate the other details like connecting to a sound system, wireless microphones and using a lighting system.
